Concept of Reviewed Medium-term Management Plan (FY2021 – FY2025)

- As three years has passed since the formulation of the Medium-term Management Plan, we have reviewed it based on changes in the internal and external environments and our progress of the plan while maintaining the basic policies such as thoroughly implementing customer-oriented business operations.

Changes in business environment

- | | |
|-----------------------------|---|
| External environment | <ul style="list-style-type: none"> From a world without interest rates to a world with interest rates Changes in customer contact points due to accelerated digitalization |
| Internal environment | <ul style="list-style-type: none"> Resumption of senior citizen solicitation based on customer-oriented business operations Decrease in number of sales employees as the hiring climate becomes tough |

Basic policy

Major progress

Reconstruction

Continue efforts to regain trust

- With the thorough implementation of customer-oriented business operations, all measures outlined in the business improvement plan have been implemented

Reinforce business foundations

- Start business operations with new Japan Post Insurance sales system
- Sales of new medical riders and lump-sum payment whole life insurance
- Promote deepened and sophisticated asset management, business efficiency, etc.

Sustainable growth

Improve customer experience value

- Implement DX¹ measures to improve CX², including online attendance during the new policy application procedure and expansion of My Page functions.

Promote ESG management

(contribute solutions to social issues)

- Promote measures that contribute to resolving social challenges, such as impact investment, progress in academic-industrial collaboration and home nursing care services

Corporate culture and work-style reform

- Improve ES scores while promoting diversity through various improvement measures and promotion of expanding roles for female employees

Reinforcement of governance, solvency policy

- Achieve stable shareholder returns while maintaining financial soundness based on ERM³

Main Points of the Reviewed Medium-Term Management Plan

Through a post office network, etc., we maintain connections with customers as “a trusted partner easy to consult with”.

- Expand product line-up that includes both savings-oriented features and protection-oriented features
 - Enhance after-sales follow-ups via physical and digital means

- Further diversification of revenue sources through domestic and international alliances, etc.

- Promote human capital management / Corporate culture reform

- Further promotion of management conscious of capital efficiency

{ Also, we will steadily progress with the other initiatives such as asset management and streamlining business operations }

5. In order to achieve the targets, the carbon neutralization is necessary, including the popularization of renewable energy in Japan. Japan Post Group will also support the carbon neutralization of Japan and the world. We will support the Paris Agreement and promote efforts to achieve carbon neutrality.
6. Ratio of female managers at the head offices of the four main companies of Japan Post Group. The Group aims to achieve the ratio above as of April 1, 2031, a date when the effect of the initiatives up to FY2030 will have become apparent

Introduction of Adjusted Profit

- Considering the characteristics unique to life insurance companies whose sales recovery has a negative impact on net income in the short term, we are introducing “adjusted profit” that partially adjusts for such negative impact as a management target and source of shareholder returns.
- We aim to achieve medium- to long-term growth exceeding the cost of shareholders’ equity (approx. 6%) under adjusted ROE, with adjusted profit as the numerator and shareholders’ equity as the denominator.

Adjusted profit

- By adjusting the burden of regular policy reserves from net income, we can mitigate the effect of decline in short-term profits when considering future sales recovery
- Stable returns to shareholders while ensuring soundness by treating adjusted profit as a source of shareholder returns

Adjusted profit

Net income
+ Burden of regular policy reserves
in the first year (after tax)

Target adjusted profit for FY2025: ¥97.0bn

Adjusted ROE

- Our cost of shareholders’ equity believed to be approx. 6%
- Aim to achieve medium- to long-term growth exceeding the cost of shareholders’ equity under adjusted ROE with adjusted profit as the numerator and shareholders’ equity as the denominator

Adjusted ROE

Adjusted profit
÷ Shareholders’ equity (average)

Target adjusted ROE for FY2025: approx. 6%

→ Aim for medium- to long-term growth exceeding the cost of shareholders’ equity

1. Concept of Review

2. Growth Strategies

3. Sustainability Management

4. Management Conscious of Capital Efficiency

Overall picture of the growth strategies

- While thoroughly implementing customer-oriented business operations, we aim to retain and expand customer base based on connections across life stages/generations, and grow into a sustainable and “strong company” that can secure stable income

“Unchanged”
Value we offer

We will remain trusted and selected by customers, thereby protecting their lives by providing life insurance product

Retain and expand customer base based on connections across life stages/generations

- Increase the appeal of savings products in tune with rising interest rates and other external factors; expand product line-up to meet the diverse customer needs
- Enhance after-sales follow-ups with quality and quantity, leading to improved CX

- Along with a sense of familiarity as “Post Office insurance,” we maintain connections with customers as “a trusted partner easy to consult with” and provide assurance across life stages/generations, aiming to retain and expand customer base

Grow into a sustainable and “strong company”

Achieving greater depth and evolution of asset management

- Under appropriate risk management, secure and increase stable asset management earnings
- Achieving greater depth and evolution of asset management that also contributes to promoting Japan as a “Leading Asset Management Center,” such as embarking on a new stage of sustainable investment focused on impact investments (Innovation3.0).

Diversify sources of revenue / Create new opportunities for growth

- Expand collaborations based on various alliances both in Japan and abroad; continue exploration to create new opportunities for growth

Streamline business operations

- By streamlining front line/back office operations, proceed with personnel shifting to production divisions and promote reduction of necessary expenses
- Reduce necessary expenses to 502.0 billion Yen (FY 2025), while responding to inflation beyond expectations and strengthening investment in human capital.

Retain and expand customer base based on connections across life stages/generations

- We maintain connections with customers as “a trusted partner easy to consult with” and continue providing assurance across life stages/generations.
- To this end, we work to expand our product line-up to meet the diverse customer needs and further enhance after-sales follow-ups with quality and quantity.

Expand product line-up to meet the diverse customer needs

- Increase the appeal of savings products in tune with rising interest rates and other external factors
- Expand product line-up that includes both savings-oriented features and protection-oriented features

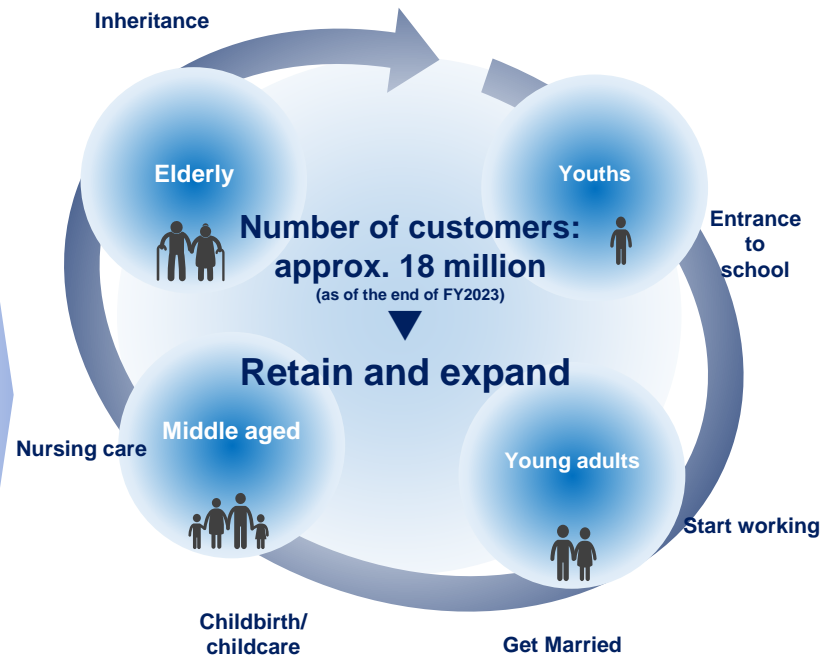

Remain close to customers

as “a trusted partner easy to consult with”

Enhance after-sales follow-ups with quality and quantity, leading to improved CX

- Maintain connections with customers via physical and digital means to build relationships in which they feel comfortable consulting with us at anytime
- Payment of insurance claims, provision of useful information, resolution of problems ,etc. based on a timely understanding of situations, expectations and concerns of customers and their families

Connections across life stages/generations

Attend to customers through a post office network, etc.
(active recruitment and development of sales employees)

- Leveraging the industry's largest customer base and connections with customers across life stages/generations, retain and expand customers

《Connect maturities》

Number of insurance payouts on maturity: approx. 1.3 million (FY2023)

- Provide insurance seamlessly to customers whose insurance policies reached maturity

《Connect generations》

- Explain the necessity of insurance to next-generation prospects, gain their understanding and provide assurance

(Reference) DX Promotion for CX Improvement

- We are working to improve customer convenience and quality of our services by promoting DX such as following up on customers using digital means, digitalizing procedures, and streamlining and automating operations, to ensure customers feel truly glad they chose Japan Post Insurance.

Initiatives

Enhancing customer follow-ups using digital means

<After-sales follow-ups via physical and digital means>

- Share information on customer procedures and attributes with consultants in a timely manner, and support the process of approaching customers
- Provide useful information tailored to customers' interests
[Example] Giving advance notice on policy maturity and delivery of certificate of payment, etc.

<Customer and employee support at customer centers>

- Customer center employees offer digital and non-face-to-face support to customers and front line employees
[Example] Real-time support, online attendance during the new policy application procedure

Digitalizing procedures/streamlining and automating operations

<Wider range of claims to file via My Page/online>

- Improve customer convenience by gradually expanding the range of procedures that can be completed via My Page or online
[Example] My Page members: approx. 1.2 million as of the end of FY2023

<Online claim acceptance>

- introduction of paperless "Japan Post Insurance Digital Procedure System", which allows requests to be processed on the spot
[Example] Full automation of approx. 70% of policy-maintenance and claim-processing operations*
* For back-office work for requests received at sales terminals

Future direction

- Promote DX with force in order to improve CX and support growth strategy

Enhancement of after-sales follow-ups

- Utilization of digital technology by all front- and back-office employees to jointly enhance after-sales follow-ups with quality and quantity
- As a trusted and familiar entity, we will continue to connect with customers and build a better relationship where customers feel free to consult with us

Further expansion of customer center functions

- Further expand customer center functions to improve customer convenience and support sales
- Promote reskilling and training of personnel responsible for enhancing various functions

Further promotion of business model reform

- Further improve CX by expanding the range of claims that can be processed through Japan Post Insurance Digital Procedure System and promoting registration and use of My Page
- Steadily proceed with reduction of workload through automation of operations and productivity improvement

(Reference)

By FY2023, DX promotion and other measures led to the reduction of existing service center workload by the equivalent of approx. 1,000 employees compared to FY2021. We aim to further reduce the workload by the equivalent of 1,000 employees by FY2025.

Retain and expand customer base based on connections across life stages/generations

(Reference) Services That Are Close to the Daily Lives of Customers

- By providing services to customers in all aspects of their lives and continuing to connect with them, we will be able to understand their needs in a more timely and accurate manner and to make optimal proposals that meet the needs of each individual.
- By providing services that are close to the daily lives of customers, we will continuously work to resolve social challenges our customers are facing.

Connections between customers' lifetimes and Japan Post Insurance (from points to lines)

- Help customers resolve their problems as they come by providing support as a trusted partner easy to consult with through daily after-sales follow-ups, etc.
- Build lasting connection with customers in all aspects of their lives (lines), as opposed to our conventional connection with customers in limited aspects of their lives (dots)

Case studies

- Solve problems for customers through cooperation with businesses that provide services that contribute toward solving social issues

End-of-life activities / inheritance

[Investment results] approx. ¥1.5bn in 8 companies as of March 2024

Achieving greater depth and evolution of asset management (Innovation 3.0)

- Under the ERM framework, we aim to secure stable asset management earnings and improve asset management earnings based on ALM management.
- We strive for greater depth and evolution of asset management (Innovation 3.0*), that also contributes to promoting Japan as a “Leading Asset Management Center,” which will be achieved through improving asset management earnings in response to changes in the market environment, expanding and advancing new businesses in collaboration with other companies, embarking on a new stage of sustainable investment with impact investments at its core, restructuring organizations and fostering specialists.

Improve asset management earnings

- Tactically and flexibly acquire additional earnings in tune with the market environment
- Restructure asset portfolio considering the departure from zero-inflation environment (concentrate new funding in inflation-resistant stocks, infrastructures, real estate, etc.)
- In light of the introduction of the new solvency regulation, establish an investment framework with an emphasis on economic value-based return against risk

Expand and develop new businesses

- In collaboration with MITSUI & CO., LTD., invest in and realize acquisition of a new asset management company, etc. through MKAM Co., Ltd.
- Seize revenue and create synergetic effects through collaborations, etc. with other companies, such as the expansion of asset management business

Embark on a new stage of sustainable investment

- Promote sustainable investment that creates a sense of “warmth” unique to Japan Post Insurance, with impact investments as the core (promote further the Impact “K” Project)
- As a universal owner and from the leading position in the financial industry, we realize investment and financing conducive to solving social issues and creating innovations mainly through academic-industrial collaborations
- Through “Responsible Investment Report,” etc., announce publicly our forward-thinking initiative of sustainable investment (including efforts to decarbonize our investment portfolio)

Restructure organizations/ Foster specialists

- Set up a specialized department to enhance knowledge on the investment fields and sustainability fields
- Develop specialists well-versed in cross asset trading and strengthen measures to foster personnel engaged in specialist jobs by way of active talent exchange with external parties
- Discuss and build optimal administrative and system structures capable of responding to changes in the market quickly

Return Seeking Assets

Embark on a new stage of sustainable investment

Under the “Impact ‘K’ Project,” promote impact orientated investment

1. Concept of Review

2. Growth Strategies

3. Sustainability Management

4. Management Conscious of Capital Efficiency

ERM and Capital Policy

- Based on ERM under our Risk Appetite Statement, we will ensure soundness in business operation while achieving sustained growth and the medium- to long-term enhancement of corporate value.
- We will aim to secure revenue and give due consideration to efficiency in terms of capital and risk while ensuring financial soundness.
- Recognize that the distribution of profit to shareholders is an important policy of management, we aim to secure profits while maintaining financial soundness and return them to shareholders stably based on ERM.

Improvement of return against risk

- Build a well-balanced product portfolio between savings-type products and protection-type products
- Engage in deeper and evolution of asset management to maximize return against risk (Return seeking assets: approx. 18% to 20%)
- Invest in DX while promoting improved efficiency in business operation

Improvement of capital efficiency

- Aim for growth exceeding estimated capital costs in the medium- to long-term, at adjusted ROE and RoEV* of approx. 6%
- Pay due consideration to costs and quality in the capital composition and maintain soundness of the financial base
- During Medium-term Management Plan, average total payout ratio in the medium term is set at 40~50%. Adjusted profit was introduced in an effort to define sources of shareholder returns while taking their stability into consideration.

* A value obtained by excluding the "difference between the economic assumption and actual results" from the EV variance factors.

Maintaining financial soundness

- Establish and maintain various levels of financial soundness
 - ✓ ESR (economic solvency ratio) : appropriate standards (target range) 150%~220% / warning standard 110%
 - ✓ Solvency margin ratio: standard ratio of 600% / minimum ratio of 400%
- Implementation of improvement measures aimed at stable achievement of the ESR target range (debt financing, ceded reinsurance, etc.)
- Smooth implementation of the new capital regulations

To Improve Market Evaluation

- We aim to improve our market evaluation by steadily implementing our Medium-term Management Plan, retaining and expanding customer base, improving profitability and achieving appropriate financial leverage to increase our adjusted ROE.
